Independence, terrorism  
A hail of pebbles and stones  
Poverty and racism  
The wheel of conflict rolls on

Dictatorship, fanaticism  
The battle lines drawn in mind and soil  
A drop of fucking human blood  
For every gallon of oil

Hightech death and Disneyland  
Censorship and Jesus Christ  
Dual moraled Uncle Sam  
World police and fucking apple pie

The crescent and the endless  
Ever changing dunes  
The sun and precious black gold  
A different culture language  
Creed and tune  
A different God I have been told

Pushed into corners hunted down  
Observed, surveyed and chained  
Religious fundamentalism  
Prosper as preassure is sustained

Hightech death and Disneyland  
Censorship and Jesus Christ  
Dual moraled Uncle Sam  
World police and fucking apple pie

Resolution Greed
