Silently watching gaze
Across the blackened plains
Two eyes like burning embers
Awaits the moment for the north star to blaze

Sythanagon winged
Angel rides death's wind
To cloudless sky
And sound a summon call of war
burn does the skyline

Soundless wings lacerate the night
Angels of death emerge across the sky
Thorned heads spiky limbs climbs the air up high
Attack of the pearly gates
Now wait for the sign...

Seen now is His star
Ablaze now risen in
The sign of the one with
A number not a name
Now given is the sign

The golden walls of heaven
Sound is given now of charge
A voice of war does cry
The cry does sound the signal
the walls are stormed fly

Swords are drawn in soundless flight
Above the walls of gold
The winged angels of death descends
A thousand from above
heaven is in its last throes of death

Sacred shrine of life and death
Apharamon's gold key
raping of holy interior
And all concealed
masturbated upon is throne of gold

Scattered battered wings

Along the palaces and streets
Trophy of victory
Attached to spear of the Beast
Now spitted at is the scalp of God
