Forward : ride the ocean's waves  
be bold : glory to the brave  
Deep the sea : above me eternal sky  
freezing winds : cold to the limbs : the waves are high  
sleepless nights : the bleak moonlight : the chill and  
damp  
by morning light : a strip of land we see  
Vinland : crossing the endless raging ocean  
Vinland : follow the stars and the sign of the raven  
Vinland : watch the horizon for the strip of the western  
land  
Vinland : plough through the waves white wolfs at a  
raging sea  
The wind : mighty : fills your sail  
onward : to the land in your fathers' tale  
Forward brothers : reward awaits the bold and brave  
white sons of north : through hail and storms : we rode  
the waves  
we beach the ship upon the coast of western land  
and rest our tired limbs among the reed and sand  
Vinland : crossing the endless raging ocean  
Vinland : follow the stars and the sign of the raven  
Vinland : watch the horizon for the strip of the western  
land  
Vinland : plough through the waves white wolfs at a  
raging sea
