Hey man, where are you now  
Are you alive somehow  
I thought you would take the plane  
Never to be seen or heard again  
Hey man, do you believe  
I'm sorry 'cause of your grief  
Fuck you I can't rely  
On anyone who's word is on stand-by  
I thought you thought I did not know  
I thought you thought I did not know it  
I thought that you thought

I thought you thought I did not know it  
Hey man I do confess  
I'm happy you're in this mess  
This time I'm not your nurse  
I only hope it will get worse  
I thought you thought I did not know  
I thought you thought I did not know it  
I thought that you thought  
I thought you thought I did not know it
