I've seen that recipe  
Lawmen and royalty  
And nothing on earth can take that taste  
And make it something sweet  
I saw the news today  
A broken everything with years to pay  
And nobody else can save us now  
And that's alright by me  
'Cos I say  
We make love in the face of it all  
Feel the freedom and the purity  
And what we need is not security  
Something more than a law  
We walk at night in a blind wind  
Through the streets where the rich once lived  
And what we want's beyond the will to win  
Something more than a law  
I feel the rain on me  
I'm soaked in memory  
And never will I betray that love  
'Cos that's not love by me

I know prosperity

But he could never be a part of me

The snow and the stone

Feeling never at home

Well she's my poetry

'Cos I say

Chorus

And when we're lonely

It's more than lonely

So we turn around to say something bigger than us

But then who do you blame when your love is gone
