Silver shone the rooftops, I heard the words 'You will'

And realized that in your eyes, the force of love could  
kill.

So go and get your wages, you get what you deserve,

When hope held out its hand today, you laughed and  
turned and fled

Release, 'cos I wanted the world, and all I could get to

Was a gun or a girl.

Release, now I've thrown them away,

I'm here and I'm hungry and I hope I can stay.

The loch is overflowing, the sun has shed its light

And all that's left to warm your breasts' the wine we  
stole tonight,

Bottle merchats bother of us, overdosed on Keats, we  
smashed them all

And watched them fall like magic in the streets.

chorus

Standing in our new boots, we've lost the urge to hide.

We left it with the souvenirs that forced us to decide

How we'd storm the palace, meet me at the gates,

There's plenty bread and water here for anyone who  
waits.

chorus

But you can't remember where you squandered your  
hope

A fistful of dollars and a fistful of dope.

With your hands in your hair and your hair in your face,

You'd better summon your soul because we're leaving  
this place,

With a red, red flag and a red, red flag

And a red, red flag for a souvenir
