

Camera Can't Lie "Love The Noise"

Visit "[Love The Noise](#)" on MotoLyrics.com

Life is shorter, watch seconds passing
faster than a moment deciding
whether time might pay you back

Happiness lingers, like angels singing
louder than the world that is pleading
never giving a second chance

Who is too selfish, not one to be telling
the stranger everyone is ignoring
just turn around and follow me?

Night is longer, sleep might be wasting

water on the ones not thirsty
Just shout the love youve found

Sing because you love the noise
shout for something filled with joy
you might be the reason someone lives

Sing because you love the noise
shout for something filled with joy
you might be the reason someone lives
just take what life gives
