Open up, up, up, up, up, up, up
Whats the matter
it hurts me to have ya feelin like theres no where to
turn.
And u sound so sad, I want to know wat happened.
Trust me theres one thing I learned.

Dont you give up on your faith don't you give up on you
dreams don't you give up not now I've been through
the pain to how can I explain to you thought its gonna
be alright ,alright,alright

(chorus)

Tell me then girl why you crying now there's no sense
in lying now I'm the only one around you tell me all your
secrets don't you keep them buried inside of you wish
there was something I could do all you got to do is
open up up up up up up up all you gotta do is open up
tell then girl why you crying now there's no sense in
lying now I'm the only one around all you gotta do is
open up

No one can take your place love so dry your face cause
the sun is gonna rise up again show the world that
smile cause you ain't use it in awhile everydays a
chance to begin oh yea

Don't you give in to your fears don't you give into to the
struggle don't you give into the darkness oh no I would
understand you that's why I plan to be here for you
your not alone

Chorus

Open up to me I promise ill look out for you I'm
watching watching sometimes the world will Beat on us
on us Don't let no one get the best of you I know
sometimes it testing you we just shake it right off us off
us

Chorus
