Goodbye to all we were
We tried so hard to make things work
Goodbye to all we were
We tried so hard

Stay calm, don't worry about it
It's obvious you weren't listening at all
I will fight for you and fight for us
But without your help it's dangerous

When you hold me against my will I tend to lose my
mind
How does it feel? How do you feel? How do I feel?
Do you even feel me?

I'm concentrating on our presently frustrating
relationship
Sometimes I wish this was just a test of my mentality
But in all actuality, your driving me insane

Back, I'm bringing her back.
I swear I'll bring her back

Goodbye to all we were
We tried so hard to make things work
Goodbye to all we were
We tried so hard

I've tried so hard to fix you
But you're beyond repair
You've taken everything
And we both know that's not fair

You're living things change
You're living that things

Change
They will never stay the same

This is where I call you out
But who are you now?

I don't know
I don't know you anymore
