I hate to whisper but I have no choice
It's just so you'll hear the sound of my voice
If I'm crying I'm lying and I haven't shed a tear
You know you're not welcome here
It's back to the cage for us
Whip that smirk of this is serious

So dance in my throat and sing to my words
Hoping that they, hoping they were heard

You never said you were sick of the sound
Don't act like you have never heard me
Now I'm wondering do you care?
Do you feel me? Are you listening?

Working past forever it goes on and on
But through and through we have stayed strong
We're coming together, slay them left and right
This is camisado, sleep well tonight
It's the end for you and all the rest
Just so you know it's for the best

So dance in my throat and sing to my words
Hoping that they, hoping they were heard

You never said you were sick of the sound
Don't act like you have never heard me
Now I'm wondering do you care?
Do you feel me? Are you listening?

Breakdown and bite the skin
Breakdown so you can feel me

Break, break yourself
