Oh I know you find this situation so hard to swallow

So I guess we'll never know
So I guess we'll never find out

Speed up the process lets get this over with
Speed up the process cause this is over

I'll never forget this was something more than a tragic
ending,
When I am coming home

Actually I can't believe that all of this is happening to
me
Actually I choose not to see how you destroy me

My heart is begging me not to let you go
But this time I'll break myself to save myself

You know that it's just not fair
Yea this is everybody's war
Yea you're mistaken there was something more

This is gonna hurt

Actually I can't believe that all of this is happening to
me
Actually I choose not to see how you destroy me
