### "Believe In Us by Warren Wiebe"

Visit "[Believe In Us by Warren Wiebe](#)" on MotoLyrics.com

I have always been a dreamer  
From the day I was born I watched the sky  
All the planets spinning silent  
Like they knew their way,  
And somehow I believed we'd stand here one day

Now I know you're afraid that love wont last  
Say what you will, I've got all the time you need  
There's a dream and a chance, Baby that's we have  
Say that you will, It will always be enough if you believe  
in us

There are moments when I worry,  
When the waters rise and the currents take you  
There's a life line stretched between us,  
Between your heart and mine  
Across all space and time and that never dies

But I know you're afraid that love wont last  
Say what you will, I've got all the time you need  
There's a dream and a chance, Baby that's we have  
Say that you will, It will always be enough if you believe  
in us

Ohh Ohh Ohh ....

Baby say what you will, I've got all the time you need  
There's a dream and a chance, Baby that's we have  
Say that you will, It will always be enough if you believe  
in us

Just watch the sky,  
Like the planets spinning silent,  
We will find our way, Baby I believe in us  
Baby I believe in us, yes I believe in us
