"Different Summers"

Visit ["Different Summers"](#) on MotoLyrics.com

We're like a melody with no words
Until you figure it out
We sing
La, la, la, la

If we remember different summers
It's like tossing our hearts to see where they land
Heads is easy
Tails is harder to plan
When we're starting all over again and again and again

You know that I can't help but wonder
What's gonna happen next
I'm a little curious, oh yeah
Every star that I stood under
You were under it too
Did you ever think about us?

I hope you see it, 'cause I can tell you
That's something I'll never forget
I won't forget

If we remember different summers
It's like tossing your heart to see where it lands
Heads is easy
Tails is harder to plan
When we're starting all over again
