Just watch! I'll give you something to follow
Cause I've been waiting so patiently (to the left)
Got fire come outa me
I faught you up again, I'm just letting you know
(I keep givin you the)
We bring the fire
I'm a heat it up
Under my control
Here's the night that you've been waiting for

Gota make it hot
This stage is mine
So set it up

A genius knowin no one can take this crown
It's so great (so great)
