I couldn't get to sleep at all last night
i could have just left you here but it would'nt have been
right
aw can't you wake up and take another breath
don't leave me alone here cause there aint't nothing
left

all is calm here all is bright
no use in worrying about what happened last night
you're gone for good, guess I went too far
didn't mean to put you down - not so far

well I guess I'm gonna join you cause there's no place
to run

can you see me coming through the barrel of this gun
i can see the horizon in a big white light
now we'll allways be together an we're never going to
fight

all is calm here all is bright
no use in worrying about what happened last night
you're gone for good, guess I went too far
didn't mean to put you down - not so far
