Spin me around, left to right, right to left.  
I am dizzy from this feeling that I get.  
And we can talk. Go ahead talk. Say anything.  
Best friends 'till the end of time.

'Till the end of time.

Whoa oh! We sing glory, glory! It's the end of the story  
we move on with our lives.  
Whoa oh! We sing glory, glory! You're the only, only  
one I'll ever love.

And I'll remember all times that we shared. For you I  
would do the impossible. And my dear friend, I'll  
extend out my hand, when you need to fall into my  
arms.

Fall into my arms

You're the only I'll ever love. I'll never give in. I'll never  
give up.
