Put all the past in a box and seal it with shrink wrap,
Send it away to a place you'll never go,
Smash all the glass that is keeping you trapped in a
bottle,
Take your first cold breath of hope,
Oh-oh, oh-oh

(Chorus)

Starting, over, again -oh,
I know there's something waiting,
And I'm changing,
Just like January,
I'll start, over, again - oh,
Just when I thought I faded,
You saved me,
Just like January,

Trash everything that has ever crashed your system,
Forget all the days that you've ever cried for help,
Shelf all the words that have ever been used against
you,
Take the time to trust yourself,
Oh-oh, oh-oh,

(Chorus)

And I'm changing,
January,
And I don't know what's coming,
Or what lies ahead for me,
Just when I thought I faded,
You saved me,
