

## Canadians "Find Out Our 60's"

Visit "[Find Out Our 60's](#)" on MotoLyrics.com

These days it seems to go just out of your time  
new hair cuts, today cigarettes smoke really don't  
belong to you  
the sand dunes, the canyons, find out your 60's  
the melodies from now on, forever and ever

why? That sound is gone but you are still analogical  
and why? It's so far away from here  
don't keep this mental state but catch the wave

the beach boys and the old style songs or dancing in  
the moon

i love you and here comes the pressure, please put a  
record on  
the sand dunes, the canyons, find out your 60's  
the melodies from now on, forever and ever

why? That sound is gone but you are still analogical  
and why? It's so far away from here  
don't keep this mental state but catch the wave
