News, good news, don't you know?  
It's the end of the contemporary age  
snow and deers will return in town  
and tears will not just be untrue

and this world is going to change  
i'm falling in love with you  
put your pins on the t-shirt  
the revolution is near  
wind of change in the air, in my brain  
i'm glad and my heart is near to explode

how so sweet the good news are  
like a goose flying to the sun  
let's go so far to the river, where frogs and fishes  
smile  
here we could stay for a holiday
