Holidays in a summer place  
drinking beer with you five years ago  
in your hands iÂ've lost my friends  
i fell down into you discovering new vibrations

again when i was seventeen  
i tried to kill all my fears  
goodbye  
here i only could dream away my time  
iÂ'll never forget your face  
summer teenage girl

homesickness behind my soul again  
iÂ'm crying my memories discovering new vibrations

again when i was seventeen  
i tried to kill all my fears  
goodbye  
here i only could dream away my time  
iÂ'll never forget your face

summer teenage girl
