I have so many feelings  
Stuck up inside me  
And i always say  
"one of these days,  
Ima blow up, let everyone know how I feel  
and why i cant sleep and night"  
Now i no some girls are whore  
And how I can be so mean  
So then I stop and think, about my baby  
And ask "What am i gonna do today?"  
"Look at that girl, am I gonna turn out that way?"

Oh-oh oh.. Yeah..

I need to Loose My-self  
Inorder to find my-self  
(i need a path to get home)  
I need to loose my, Loose my-self  
Or maybe I just need you  
But i need to find my self

So many hours of the day  
Pass me by..  
But im not bored Cause Im thinkin about you  
And what i need to do, just to talk to you  
"now i dont need him, who cares if hes perfect?"  
thats i have to say to myself- along with everybody  
else!

I need to loose my-self  
Inorder to find my-self  
(i need a path to get home)  
I need to loose my, loose my-self  
Or maybe I just need you  
Although i need to find my self

(bridge)  
Now everyone can stare, Everyone can question me  
But Im not giving answers.  
At least not today..  
Cause Ima make the best of every single day..

I need to loose my-self  
Inorder to find my-self  
(i need a path to get home)  
I need to loose my, Loose my-self  
Or maybe i just need you  
But I know, yeah i know Im gonna find my self...

I need to loose my-self  
Inorder to find my-self  
(i need a path to get home)  
I need to loose my, loose my-self  
Or maybe I just need you  
Cause i need to find my self..
