There was a time empty of hope  
And full of misery  
Where nothing made sense  
I've seen death running before my eyes  
Slowly I fall in darkness  
That's the last down I... I see  
My destiny is to die as a mortal being

And tonight I feel inside  
All the power and the force  
Of those who preceded to me  
Ancient blood runs through my veins  
Fire burns inside my soul  
Not a thing will be the same again

I've seen the world condemned  
Since the beginning of our time  
That... s the essence of my pain

In this coldest existence  
I've seen the ancient nations fall  
That's my LEGACY OF BLOOD

I am walking through the dark  
In this painful eternity  
And a dream of a purple dawn  
Repeating in my mind  
Remaining in the shadows  
I'm searching eternal rest  
To drink the blood of my own brothers  
Is my sentence
