MADRE

Alone she fall, she stop her breath
Sleep on my car she's down my care

Say I want to see what you believe is what you feel

Mother of us can you see all the pain everywhere can
you make us free
Living inside myself, living inside myself, madre
adonde puedo ir
Madre de Dios, can you take me out of this can you
help me to please
Please each one of you to be strong enough to be not
afraid

Madre de Dios

Feel the host inside of you, madre

Feel the host inside of you, parece cambiado, parece
innovado
una vez m?s, un nuevo ser, al que joder, un nuevo hijo
que le encanta el placer
alone, if you are infected you are alone, to please
to please myself you gave me this, your fault
it's all your fault for being a saint, a saint
for those who saw you in pain...

madre de Dios, s?lvame...
