I used to hear two hearts beating
now I just hear mine
for you have walked out the door
and left me standing still in time
I thought once we met
we'd be together everyday
now they've gone and ripped me apart
by taking you away
CHORUS: I can't feel, I can't eat
I can't move and I can't sleep
I can't think and baby I can't even breathe
I don't feel I can do anything
Until your back beside me
I knew these days would come
but I didn't know they'd come so fast
we were apart then together
and our time just couldn't last
And I know you can't change it
you must go now to the light
but I still hope to turn over
and find you next to me one of these nights

(repeat chorus)

It's cold and lonely here

since you went away

and I try to keep moving on

but I miss you more each day

And your pictures on the walls

call out to me in the night

if I could just do anything

to pass the time

(repeat chorus)

Baby don't you worry

if you come home to me

I'll still stand here

by your side faithfully

So let me dry these tears

I've cried so many nights

and I'll just look at you and smile

and tell you everything's been alright

but for now...(repeat chorus)
