Whatever happened to all those people in all those
bands?
Whatever happens to all our dreams, to all our plans?

Hunker down
You will be on the mic again
There will be tons of laughter
But you won't hear a thing

Hunker down
You will be on the list again
There will be tons of people
But you won't see a thing
Oh no

Who's breaking up the band?
Who's breaking up the band?
You better hunker down
You better hunker down

Hunker down
You better save your energy
There will be tons of magic
But you won't feel a thing
Oh no

Who's breaking up the band?
Who's breaking up the band?
You better hunker down
You better hunker down

Hunker down
And if you pass this way again
There will be hearts filled with music
And girls backstage with drugs backstage
But you won't feel a thing
