Yeah it's been real nice to know you
Oh you're everything I'll ever need
Yeah it's been real nice to know you
Oh you're everything I'll ever need

I don't wanna know
But I see you everywhere I go
I can't let another day slip by
Wondering where you're gonna sleep tonight
I'll do it all again
Cause I have to do it all again
It really hurts like hell
It really hurts like hell

Yeah it's been real nice to know you
Oh you're everything I'll ever need
Yeah it's been real nice to know you
Oh you're everything I'll ever need
I've got one last thing to tell you
Oh you're everything I'll ever need
I've got one last thing to tell you
Oh you're everything...
Nice to know you
Nice to know you

I could let it go
If you found somebody else somewhere
I don't wanna know
It really hurts like hell
It really hurts like hell

Yeah it's been real nice to know you
Oh you're everything I'll ever need
Yeah it's been real nice to know you
Oh you're everything I'll ever need
I've got one last thing to tell you
Oh you're everything I'll ever need
But I just can't live without you...
