I believe in my dark sin
I believe in a placentorous dreams
I believe in my dreams of death I need again this... kill
Lust and desire entangled my soul my kingdom

A kingdom of black sin my world
All the forbid live in my mind
The essence what I drink is your blood
Massacre and vilentions devoted worship tone

I'm the a what vomit all degradations
Pornography, violence, satanism in my head

Pain and cry in your soul
Drugs and sex are my forces
Seek world, full my soul
Stupid believer, burn in hell

Burned in hell Impaled virgins mutilated children
Blasphemic God seduce Christ
My kingdom is on the shadows
The shadows involve the the world the light is extinct
your faith is decay
I vomit your white emotions
I defecated in your placentous
I need again this violated you.
