Her gaze hit the side of mine, so I opened it out  
To destroy what you thought was difference  
So I lied to you once again, so I painted over you once  
again  
So I die before you once again, what's the difference?

Come clearly where the flavor is, seen here in black  
and white  
You've got two seconds baby boy  
In burning light white light, what's the difference?

Clear up what you are  
Burn out these eyes  
Rip up this place and scream

I am your slice of life  
I am your slice of life  
I am your slice of life  
I am your slice of life

Shivering under lamp posts, shivering under glass

Your standing on charisma again  
God knows it cannot last, what's the difference?

Ice inside your body, blood inside your soul  
Yet still twelve faces stand around  
Hugging your skinny bones, what's the difference?

So clear up what you are  
Burn out these eyes  
Rip up this place and scream

I am your slice of life  
I am your slice of life  
I am your slice of life  
I am your slice of life

And the car opened him up to so much more  
And the money is brighter with a wider smile  
And the problem expands inside your head

I am your slice of life  
I am your slice of life  
I am your slice of life  
I am your slice of life
