Baby, you've got me thinking
About the things I left behind
A suitcase in Helsinki
Full of things I wanna set on fire (set on fire)

For I realized that you've been lying
And no matter how hard I try
I won't be able to forget this
Cause this is buried deep inside

Baby, what I left behind
What I left behind
Left Behind
What I left behind

So I will fly back to Helsinki
And even stay there for a while
Gonna get my things back
Gonna get some fun then drink till I pass out
I'm gonna jump onto the table
And dance my ass off till I die
I'm gonna hopefully forget you
And quit those nightmares I've been having

Every night, every day, it's the same, so hard to explain
A million pounds won't be enough
To make me stare back at your face

That's why I left behind
Left behind
What I left behind
Left behind

Every night, every day, it's the same, so hard to explain
A million pounds won't be enough
To make me stare back at your face

Baby, you've got me thinking
Baby, you've got me thinking

Baby, you've got me thinking

About the things I left behind
A suitcase in Helsinki
Full of things I wanna set on fire (set on fire)
I'm gonna jump onto the table
And dance my ass off till I die
And then I hopefully forget you
And quit those nightmares I've been having

Every night, every day, it's the same, so hard to explain
A million pounds won't be enough
To make me stare back at your face
Every night, every day, it's the same, so hard to explain
A million pounds won't be enough
To make me stare back at your face

That's why I left behind
