"Merciless"

The night is calling, vicious creatures all around
Moonlight shadows moving fast, beware don't make a
sound
I am falling, into a void and I don't know
What awaits me beyond the point where no one dares
to go
What do I see when I gaze into the fire
This burning pain, please make it go away
Do you hear me
In my dreams I am possessed
Can you tell me
If God is merciless?

Hear the thunder, burn like fire in the rain
The witching hour, calling me screaming out my name
Nothing to lose, I am drowning in the river
All my fears are staring back at me
Do you hear me
In my dreams I am possessed
Can you tell me
If God is merciless?
Do you hear me
In my dreams I am possessed
Can you tell me
If God is merciless?
