Poney honey money
I love you so
You are all I ever wanted
I am happier now you know

When I was just a girl
You were my friend
I could ride you around and brush your bright rainbow
hair

Poney poney poney
You're drivin' me through the air

Honey honey honey
You're a simply the best

Money money money
You never let me down

Poney honey money
Poney honey money

Poney honey money stay with me
We sleep when we're down so we can dream

Remember the timechinese was so weird
You were just little boy gettin' ready for me

Poney poney poney
You're drivin' me through the air

Honey honey honey
Don't act like you don't care

Money money money
I need you so

So I can take poney and honey to they're favorite rock
show
