"Calm Down"

This room is colder now, than it ever was,
And as we shiver there's a fickle little moment of truth.
And if you're honest now, I'll be honest now,
Have you ever tried to heat it up?

Now I lost my inspiration, the day I lost my nation,
We lost our inspiration because of you.
You move too slow, for me to hope.

This is not the way we're supposed to be,
Oh this is not the way we're supposed to be.
Calm down you better relax, calm down you better
relax.

This room is colder now than it ever was
Your protection lied to me, I think you're lying to
yourself
Now we need a new solution
That doesn't end with your execution.
We need a new solution without you
(You move too slow)

This is not the way we're supposed to be,
Oh this is not the way we're supposed to be.
Calm down you better relax, calm down you better
relax.

Don't say that no one ever told you to follow me
Oh people let me go I just wanna be free
And we are leaving our lives in your hands,
Why are we leaving our lives in your hands?

I'm mystified with your denial,
Can we compromise?
Cos we've only got tonight
I'm mystified with your denial,
I'm mystified with youuuuuurrrrrrr

(You move too slow for me to hope)
(You move too slow for me to hope)

This is not the way we're supposed to be,
Oh this is not the way we're supposed to be.
Calm down you better relax, calm down you better
relax.

Don't say that no one ever told you to follow me
Oh people let me go I just wanna be free,
And we are keeping our lives in your hands,
Why are we keeping our lives in your hands?
We are keeping our lives in your hands,
Keeping our lives in your hands.
