Oh oh oh, come on, check it out

What is the meaning of this, oh  
Can I do nothing but long for your kiss  
To believe all you see, no, ah ah L. O. V. E.

But I assure that this is all too real  
My thoughts are spinning around  
my feet are not touching ground  
whenever I see your face I am spellbound

Everything is changed it's not the same  
You and I play another game.  
From the L to the O to the V to the E  
That's how it's gonna be  
Everything I know side up side down  
How to keep your feet on the ground  
From the L to the O to the V to the E  
That's how it's gonna be, LOVE

(Everything is changed it's not the same, you and I  
play another game)

Tell me why it's always the same  
How come we always end up playing the same, old  
game  
Tell me why, but he wants to let go, no no  
So he goes around just pretending to take it slow  
It's getting hard to play cool, I'm playing it by the  
rules  
I don't want to end up as a fool

Everything is changed it's not the same  
You and I play another game  
From the L to the O to the V to the E  
That's how it's gonna be  
Everything I know side up side down  
How to keep your feet on the ground  
From the L to the O to the V to the E

That's how it's gonna be, LOVE

Gotta keep your mind and soul apart.  
Don't wanna risk another broken heart  
Cause we're going from the L to the O to the V to the E  
That's how it's gonna be  
But every where I turn I see your face  
You're all I think about night and day  
From the L to the O to the V to the E  
That's how it's gonna be, LOVE

/: (Everything is changed it's not the same, you and I  
play another game) :/

What is the meaning of this  
Can I do nothing but long for your kiss

Now everything is changed it's not the same  
You and I play another game  
From the L to the O to the V to the E  
That's how it's gonna be  
Now everything I know side up side down  
How to keep your feet on the ground  
From the L to the O to the V to the E  
That's how it's gonna be, LOVE

Gotta keep your mind and soul apart.  
Don't wanna risk another broken heart  
Cause we're going from the L to the O, V to the E  
That's how it's gonna be  
But every where I turn I see your face  
You're all I think about night and day  
From the L to the O to the V to the E  
That's how it's gonna be, LOVE

oh oh oh ( do I have to spell it out for you) oh oh oh
