"Perpetual Desolation"

Insanity will be my captor

Taking it's toll on my comprehension

Ecstasy

Derangement

It will be everlasting

A cage tormented catatonic

I feel lunacy in me

It's psychosis taking me over

Autopsy is my only birth-rite

Still beating necropsy for me

Dissection is my savior

I only hope that the blood loss kills me

Torch my body set me free

To roam the land of the dead

[Solo - Mongrain]
