Counteracting to the pass that he makes
I'm watching you from the sidewalk
These elements that make or break
And you look and I smile
But he's still there by your side
Put down your drink and come outside
I promise that I'll be kind

Baby girl, you know it's detrimental
How we play these games
That keep going back and forth somehow
And I'll wait oh so patient
But soon enough now
I'm gonna get my way

Oh, it's so dark in the backseat
I'm barely breathing
You're moving too fast for me
And we'll run quick and we'll see
What we're both made of
Come on, baby

Understanding through his tactics and games
You know it's such a shame
Because I'm ready and waiting
And all the boys, they stare in disbelief
Because they can't believe you'd take a second look at
me

Come on, listen
Because I know you want to now

The clock is ticking and our time is running out
So tease your hair and bat your eyes
I promise I won't lie
I'm gonna get my way

Oh, it's so dark in the backseat
I'm barely breathing
You're moving too fast for me
And we'll run quick and we'll see
What we're both made of

Come on, baby

You don't want me to know
What you've been going through
You don't want me to know
What you've been going through
What you've been going through

It's so dark in the backseat
I'm barely breathing
You're moving too fast for me
And we'll run quick and we'll see
What we're both made of
Come on

Oh, it's so dark in the backseat
I'm barely breathing
You're moving too fast for me
And we'll run quick and we'll see
What we're both made of
Come on, come on
