There's A Moon Out Again

Theres a moon out again'
brighter than it used to be
There's love in my heart
Since my baby's back with me
A moon out again
Hope we never ever part

Moon Out Again

The stars in the sky
Are shining bright above
And it answered your heart
since i found my love

A moon out again
I Thank the Lord above
{Lord Up Above)

A cloud seemed to follow me
When we were apart
But now, now that you're back again
The moon glows again in my heart

Theres a moon out again'
brighter than it used to be
There's love in my heart
my baby's back with me
you're in my arms
just like that..
There's A Moon Out Again
