Distant cousins, there's a limited supply.
And we're down to the dozens, and this is why:
Big Eyed Beans from Venus! Oh my, oh my.

Boys and girls,
Earth people around the circle,
Mixtures of man (alive, alike).
Big eyed beans from Venus,
Don't let anything get in between us.

(Beam, Bean) in on me baby,
and we'll (be in, bean, been) together
I know we always been together,
but there's more.

Mister Zoot Horn Rollo, hit that long
(lunar, looming, leaning) note,
and let it float.

Note - many people argue for looming or leaning or something else here, but since Bill Harkleroad's book about the Magic Band is called "Lunar Notes", it's a safe guess to assume the correct phrase is "lunar".

Men let your (wallets, bollocks) flop out,
and women open your (purses, pussies),
Cause a man or a woman without a big eyed bean from
Venus
Is suffering with the worstest of curses
Yeah, you're suffering, with the worstest of curses.

Put 'em out in the sun, and when the night come
You don't have to go out and get 'em
They'll (glow, flow) with you
They'll go with you
They'll show (+her) with you
Ain't no losers
Cause they're on the right track
Cause they're on the right track
You can be on the right track, woman,
Of course, of course

Ain't no SNAFU, no fol-de-rol

Check these out, Big eyed beans from Venus
Oh, (+I'll) let a few out, let 'em pass in between us

Distant cousins, there's a limited supply.
And we're down to the dozens, and this is why...

Don't let anything get in between us!
