Into the sun in my glider
There's ah shadow beside her
Up 'n down through the blues
Clouds give me my silent cues
I'm up in my glider
With ah shadow beside her
It begins t' rain on her window pane
Up in my glider
There's no shadow beside her
Thunderin' 'n lightnin'
Gettin' pretty frightenin'
I feel like an outsider
Then the sun shows through 'n right on cue
There's ah shadow beside her
Up 'n down through the blues
I'm up in my glider
'N I'm tellin' you boys there ain't no noise
'N me 'n my baby ain't never gonna bring my glider
down
