I look at her and she looks at me
In her eyes I see the sea
I can't see what she sees in a man like me
She says she loves me

Her eyes
Her eyes
Her eyes are a blue million miles

Far as I can see
She loves me

Her eyes
Her eyes
Her eyes are a blue million miles

Far as I can see
She loves me

I look at her and she looks at me
In her eyes I see the sea
I can't see what she sees in a man like me
She says she loves me

Her eyes
Her eyes
Her eyes are a blue million miles
