Well you came and now you're gone
But our life it will go on
I miss you so but only for your return
Please come back to me tomorrow
To ease this pain and sorrow
please try to understand
My heart is in your hand
baby please don't take our love in vain (repeat)
Well here I am I always am
And with you my love it will remain
please try to understand
Yeah my heart is in your hand
Please don't take my love in vain

Well my nights are filled with sorrow
For me there is no tomorrow
I'd beg or I'd steal or I'd borrow
Will you send this sorrow?
baby please don't take our love in vain (repeat)
Well here I am I always am
And with you my love it will remain
please try to understand
yeah my heart is in your hand
please don't take my love in vain
