The path is the mask of love a way a way
The flow is the task above today there is no other way
(repeat)
You gotta trust us when you need a friend
To find us you gotta look within
You gotta trust us (repeat) before you turn to dust
(repeat)
You gotta see before you see you gotta be before be

(we love you)
You gotta touch without take
You gotta hear without fear
You gotta feel to reveal
You gotta touch without take
Such is is and hate us hate (repeat)

We're for you love you with you love you just a few

We love you we tell you true we love you
The path is youth let the dying die
The path is life yeah ;let the lying lie
Let the dying die let the lying lie
(trust trust trust)
