All across the nation
People are singing in celebration
The thought of living in fame
Got them preaching her name

In this time of liberation
Everyone's got their private session
Where they exhibit their day
What they eat what the say

I don't see how everyone can raise her to the sky
So fucking high

She says brb and everybody wait right by her side
Can't think without their guide

Never knew much about your ways baby
But now you're posing everywhere baby
Stand up and take a bow right now, baby
Cause when the light goes out no one's calling you
"baby"

So sick of information
Served by this one-sided media nation
You know I couldn't care less
About the beauty queen's dress, oh no

This so called entertainment
Got me feeling pure frustration
There's nothing funny about the way
You're controlling the whole damn youth

I mean how can anybody care for real about the mean
machine
When she's off the scene?

Is this what the 21st century has turned out to be?
Now listen to me!

Never knew much about your ways baby
But now you're posing everywhere baby
Stand up and take a bow right now, baby

Cause when the light goes out no one's calling you
"baby"

Mean machine beauty queen
Mean machine beauty queen
Mean machine beauty queen
Mean machine beauty queen
