

Car Party "Love Online"

Visit "[Love Online](#)" on MotoLyrics.com

It's just one night
4 weeks since you left my bed
I know that I am inside your head
Oh it's not enough
You cried the night
That you had to leave here and put our life on hold
You'll think of me to night

Oh no it's not enough
Oh no it's not enough

Let's make love online, online tonight
Want to make you feel alive, alright
Let's connect to touch each other right
I wanna be bad tonight

She's over there
Biting her finger and twirling her hair
She's got the answer to this nightmare
The phone is not enough
I'm not myself tonight
But still I can see you, an icon of my delight
I'm waiting here to see your light

I'm not myself tonight
I'm not myself tonight

Let's make love online, online tonight
Want to make you feel alive, alright
Let's connect to touch each other right
I wanna be bad tonight
