Visit "[Impossible](#)" on MotoLyrics.com

I can see you looking, oh baby
And I know how bad you want to be with me
In your mind you're wishing that you could take me
But you're holding back like you're afraid of me

Just one night to be with you
I would show you how I break it all down
We could get lost, wear my hair down

So many possibilities, one chance
Baby, take my hand
'Cause it's not so complicated when I say

It's not impossible to love me, want to share my life
Promise I'm gonna get you right
It's not impossible and you'll see
I wanna share my life, want to love you all right

It's not impossible
It's not impossible
Nothing's impossible
I'm not impossible

What's the reason you keep me waiting?
It's obvious you can't take your eyes off me
It's getting late and you're making me impatient
Are you afraid that you might fall for me?

Just this night to be with you
I would have you open on it
Missing my kiss, looking for me
Telling your friends

But it's not that difficult, at all
Wanna break the ice, let's make noise
All you can do is try, please believe

It's not impossible to love me, want to share my life
Promise I'm gonna get you right
It's not impossible and you'll see
I wanna share my life, boy, I love you all right

It's not impossible
It's not impossible
Nothing's impossible
I'm not impossible

It's not impossible
It's not impossible
Nothing's impossible
I'm not impossible

It's not impossible to love me, want to share my life
Promise, I'm gonna get you right
It's not impossible and you'll see
I wanna share my life, boy, I love you all right

It's not impossible to love me, want to share my life
Promise I'm gonna get you right
It's not impossible and you'll see
Wanna share my life, want to love you all the time

It's not impossible
It's not impossible
Nothing's impossible
I'm not impossible

It's not impossible
It's not impossible
Nothing's impossible
I'm not impossible
