Everyday it's the same old shit
With all these fake motherfuckers around me
I can't take much more of your bullshit
and all the lies your feeding me
Worry so much about finding my faith
Why am I your fucking freak?
Shit is shit and people are shit
we're all the same underneath

Fuck all your values
and who I
thought you were
all of your fakeness
smothers me in dead fur

One step closer to the edge
Any more stress and I'm gunna snap
With all the fucking shit you talk
i'll put my foot in your bitchass
Shoulda left you fucking whore
Just stay away from me
Shoulda dragged you 6 feet under
while addiction still grows on me

Fuck all your values
and who I
thought you were
all of your fakeness
smothers me in dead fur

Happy whore surrounded by dick
I hope you know you make me sick
whirl me around and bring me down
6 feet deep into the ground
I hope you see i can't let go
14 ways to let you know
jealousy would rot me through
i would kill myself for you
Can't forget the shit you say
that i choke on every day
You can't just walk away
i beg you to fucking stay

Don't leave me behind you
I'll kill you if i can't have you.

Fuck all your values
and who I
thought you were
all of your fakeness
smothers me in dead fur

Fuck all your values
