I wish we could see  
Where the dreams all went  
I wish we could see  
Where the money got spent  
I wish we could see  
That the greatest crime  
Was to fool all of the people  
To spend all their time

I wish we could see  
Why we need so much stuff  
I wish we could see  
That enough is enough  
I wish we could see  
That the goings got tough  
Cause my living room's crammed  
And my passion's backed off

Value what is necessary  
Leave what is not  
And tell me what  
I'm doing in another shop

I wish we could see  
That we're outta control  
I wish we could see  
That we binge out our soul  
I wish we could see  
That we're gonna have to stop  
There's no one in the church  
'Cause they're all in the shop

I wish we could see  
What is hard to believe  
I wish we could see  
Better to give than receive  
I wish we could see  
That we've lost the plot  
All this envy is coveting  
Of what we ain't got

Value what is necessary

Leave what is not  
And tell me what  
I'm doing in another shop

I tried to give up smoking  
I tried to give up drugs  
I tried to give up smoking weed  
But I have to walk the dog  
I tried to give up drinking  
But I think I need a drink  
I tried to give up thinking  
That I was the missing link

In the year of the dog  
Will we understand worth  
The happiness we'll find  
In breath you draw on earth  
The year of the dog  
Is the year of the smurf  
I don't know  
What the franchise is worth

Value what is necessary  
Leave what is not  
And tell me  
What I'm doing in another shop  
Value what is necessary  
Leave what is not  
And tell me  
What I'm doing in another shop

Brought up  
In the world of Caesars Palace  
I'm being poisoned  
On a daily basis  
They ain't got food tasters  
In some of these places  
Caesars Palace

Brought up  
In the world of Caesars Palace  
And now I got  
So much stuff I don't need  
It's a sickness  
You can call it greed  
Caesars Palace

Brought up  
In the world of Caesars Palace  
It's a sin, get the money in  
Validate the parking

You can wash away your sins  
Caesars Palace

Brought up in the world of Caesars Palace  
And the odds are a trillion to one  
And still I want some  
Caesars Palace
