I'm locked in here, crimson skies has fallen  
Nowhere to run to, nowhere to hide  
I'm scared of the cold outside  
But when you warmed my frozen world  
I felt truly free and I almost forgot that you'd soon be  
gone

I'm back again, it's so black again

I wish I knew  
Lets all drown in the fleeting silence  
Somehow I lost my way, somewhere out there  
I lost my faith in life  
And now I fighting the present lousing for you  
Drifting in sorrows tide

And the sadness comes with darkness as you fall  
Vanished when you know I need your spark  
I gaze in rain I gaze into the night where you went down

The sleeping world is gone before my eyes but when  
you die

In your fires eye I've been tumbling around  
Been burnt a hundred times but I don't want to get out  
In your nightfall I've been flushed away  
To lake of tears a lake of dreams  
Drifting around in our own sorrows tide

And the sadness comes with darkness as you fall  
Vanished when you know I need your spark  
I gaze in rain I gaze into the night where you went down  
The sleeping world is gone before my eyes but when  
you die

In sorrows tide
