This can't go on forever. I look up at the blue sky
The wind that blows over everything runs up the hills

My usually serious face watches you from far away
What has happened to my pride?

That girl I can't ignore, that mysterious girl
I'll just watch quietly from here
It seems that something big waits around the corner

That feeling I can't ignore, that mysterious feeling
My heart beats like in a dream
It seems that every day it gets stronger
I won't be beaten by her

I chase the orange clouds so hurriedly
With all my strength I trip over something, falling on my
hands

When did she start to mean so much to me? I don't
know why
Fly over the asphalt and hurry home

That girl I can't ignore, that mysterious girl
I can't look away from her eyes today
Why am I matching my pace to hers as we walk down
the street?

That feeling I can't ignore, that mysterious feeling
Something made my heart start beating
But I have an idea! I won't give up whatever happens
I won't be beaten by anyone
That girl I can't ignore, that mysterious girl

You wouldn't stay here patiently within your heart
You want to know the true power that's been kept secret

That feeling I can't ignore, that mysterious feeling
It's like our future's a labyrinth, isn't it?
Grasping my dreams tightly
I won't ever give up on myself
