Expensive restaurants and cheap hotels
you can forget till it makes no sense
black black nights and promise rings
you can never get your mind back
back to the way it was
when you were daylight for me
when the sky was so black
you couldnt see
such a tiny star caught
in the great big sea
you were daylight for me

did you toll alarm clocks
that crawl inside my ears
its a cold day in the city
same shit is hitting
a big fan in the sky

and the war is only beginning
and youre still afraid of the dark

but you were daylight for me
when the sky was so black you couldnt see
such a tiny star caught in the great big sea
you were daylight.. daylight..daylight..
mmm yeahhhhhh
ahhhhhhhhhh

you were daylight for me
when the sky was so black
you couldnt see
such a tiny star caught
in the great big sea
you were daylight for me
