Warsaw in winter
flowery graves
can you still hear them
whisper your name
afraid of the cold spots
caught in the tree tops

love is a dog fight
youre losing your shelf life
i cant crawl out of this space
hours fade without a trace

all of you listening
to forfeitted years
forget what they taught you
open your ears
all of the great ones
sleep with the worn dumbs
love is a dog fight
youre losing your shelf life
i cant crawl out of this space
hours fade without a trace

i cant crawl out of this space
hours fade without a trace

duh duh duh duh

all of the great ones
sleep with the worn dumbs

love is a dog bite
youre losing your self life
i cant crawl out of this space
hours fade without a trace
